Trike Freezer

Presenting the No-Problem freezers with eutectic technology. An answer to frequent Power failures and severe Indian summer.

Eutectic freezers are specially designed and developed for places where power shutdown is for longer duration (upto 10 hours Continuous). These freezers have an inbuilt Jacket which holds eutectic solution. This eutectic solution has a property to hold the temperature for longer duration which results in longer temperature holding time of the freezers of upto 10 hrs during power failure and you can sell ice cream during this period too.
